DAAAM INTERNATIONAL SCIENTIFIC BOOK 2015

EDITOR: BRANKO KATALINIC

VIENNA 2015
EDITOR’S NOTE
This publication was produced electronic, using the manuscripts supplied by their authors. The layout, the figures and tables of some papers did not conform exactly to the standard requirements. In some cases was the layout of the manuscripts rebuild. All mistakes in manuscripts there could not been changed, nor could the English be checked completely. The readers are therefore asked to excuse any deficiencies in this publication which may have arisen from the above causes. The editor and the DAAAM International Vienna are not responsible either for the statements made or for the opinion expressed in this publication.

FOREWORD

DAAAM International Scientific Book is unique periodic publication for presentation of actual state of research and industrial projects. Since 2002 members of worldwide DAAAM international community have flexible publishing platform for the presentation of their research projects, recent results, and technical solutions. DAAAM International Scientific Book is very successful periodic publication. Since 2009 GALE Databases are indexing/abstracting Scientific Book. DAAAM International is a member of CrossRef. DOI Suffix of DAAAM International is: 10.2507 and since 2006 all Contributions in DAAAM International Scientific Book are cross-referenced and permanently available on Internet.

The main concept of this edition is: One contribution is one chapter in the Scientific Book. The size of the contribution can be extended in such way that the authors have enough space to present and explain project, ideas, results and future work. Manuscripts are subject of the following review procedures:

(a) It is reviewed by editor for general suitability for this publication.
(b) If it is judged suitable two reviewers are selected and a double blind review process takes place.
(c) Based on the recommendations of the reviewers, the editor then decide whether the particular contribution should be accepted as it is, revised or rejected.

This is the open series for the publishing of the most recent research results and international projects from all technical fields and scientific disciplines which are in the field of interest of DAAAM International. Actuality, competence, team work, interdisciplinary and international cooperation are the main characteristics of this initiative. To all readers we wish joy during the reading and success during the studying of this book.

A book of this magnitude is the work of many people. On behalf of the world wide DAAAM International community, we thank all of the authors for their high-quality contributions and external referees for carefully reviewing the submissions. We hope that this book will encourage other colleagues to join us in this fascinating international academic project. You are welcome to present your research project and to publish your research results in the next DAAAM International Scientific Book 2016.
