

DAAAM INTERNATIONAL SCIENTIFIC BOOK 2019

**EDITOR:
BRANKO KATALINIC**

VIENNA 2019

EDITOR'S NOTE

This publication was produced electronically, using the manuscripts supplied by their authors. The layout, figures and tables of some papers did not conform exactly to the standard requirements. In some cases, the layout of the manuscripts was rebuilt. All mistakes in manuscripts there could not be changed, nor could the English be checked completely. The readers are therefore asked to excuse any deficiencies in this publication which may have arisen from the above causes. The editor and the DAAAM International Vienna are not responsible either for the statements made or for the opinion expressed in this publication.

Abstracting and non-profit use of the material is permitted with credit to the source. Libraries are permitted to photocopy for private use of patrons. Instructors are permitted to photocopy isolated articles for non-commercial classroom use without fee. Author(s) agree that the DAAAM international editor 2019 (B[ranko] Katalinic) receives a full and exclusive, worldwide, perpetual, non-revocable and transferable license under copyright in the submitted work. The license especially covers, without limitation, all rights to make the article available in the internet or databases or to cite to reference, to cross-reference, to publish, reproduce and distribute the article. However the author(s) are entitled to make the following use of their work: a) to republish the article in any publication of which they are an author or editor after the work has been published by the DAAAM editor; b) to photocopy the article and distribute such photocopies and distribute the electronic versions of the article for personal or professional use, provided that any such copies are not offered for sale, and c) to make oral presentations of the work in any forum. Any of the above mentioned use of the work must explicitly identify prior publication in the *DAAAM International Scientific Book 2019, ISBN 978-3-902734-24-2, ISSN 1726-9687, Editor B[ranko] Katalinic, Published by DAAAM International Vienna and DAAAM scriptorium GmbH, Vienna 2019*, including page numbers.

FOREWORD

DAAAM International Scientific Book is unique periodic publication for presentation of actual state of research and industrial projects. Since 2002 members of worldwide DAAAM international community have flexible publishing platform for the presentation of their research projects, recent results, and technical solutions. DAAAM International Scientific Book is very successful periodic publication. Since 2009 GALE Databases are indexing/abstracting Scientific Book. DAAAM International is a member of CrossRef. DOI Suffix of DAAAM International is: 10.2507 and since 2006 all Contributions in DAAAM International Scientific Book are cross-referenced and permanently available on Internet.

The main concept of this edition is: One contribution is one chapter in the Scientific Book. The size of the contribution can be extended in such way that the authors have enough space to present and explain project, ideas, results and future work. Manuscripts are subject of the following review procedures:

- (a) It is reviewed by editor for general suitability for this publication.
- (b) If it is judged suitable two reviewers are selected and a double-blind review process takes place.
- (c) Based on the recommendations of the reviewers, the editor then decide whether the particular contribution should be accepted as it is, revised or rejected.

This is the open series for the publishing of the most recent research results and international projects from all technical fields and scientific disciplines which are in the field of interest of DAAAM International. Actuality, competence, team work, interdisciplinary and international cooperation are the main characteristics of this initiative. To all readers we wish joy during the reading and success during the study of this book.

A book of this magnitude is work of many people. On behalf of the world wide DAAAM International community, we thank all of the authors for their high-quality contributions and external referees for carefully reviewing the submissions. We hope that this book will encourage other colleagues to join us in this fascinating international academic project. You are welcome to present your research project and to publish your research results in the next DAAAM International Scientific Book 2020.

Vienna, 2019-10-23

DAAAM International President

THE REVIEWING PROCESS

Manuscripts submitted for the inclusion in the **DAAAM International Scientific Book 2019** are subjected to the following review procedures:

- 1) It is reviewed by editor for general suitability for this publication.
- 2) If it is judged suitable two reviewers are selected and a double-blind review process takes place.
- 3) Based on the recommendations of the reviewers, the editor then decide whether the particular contribution should be accepted as it is, revised or rejected.
